

PHOTOPLAY PRODUCTIONS

HISTORY AND BACKGROUND

Photoplay Productions is a **world leader in silent film restoration and film-history documentaries**. Under the direction of **Kevin Brownlow and Patrick Stanbury** it is one of the few independent companies to operate in this field and has been credited with the revival of interest in the lost art of silent movies.

Photoplay's reputation has developed over twenty years, starting with Kevin Brownlow and David Gill's documentary *Hollywood – the Pioneers*, which brought the glories of the silent screen to a television audience. The meticulous research that characterised *Hollywood* underpins all Photoplay's documentaries, their most recent being *Garbo* and *I'm King Kong* for Turner Classic Movies. Photoplay's catalogue of film restorations now exceeds 35 titles ranging from epics to comedies. As well as managing this unique film archive, Photoplay holds an archive specialising in production stills from the silent era and interviews with veterans of the silent screen.
